

Independent Governor Support (IGovS) are a group of 30 plus ex-National Leaders of Governance (NLGs) from across the country who came together to ensure that those with a school governance responsibility in any setting can still benefit from the mentoring, ‘safe space’ conversations and guidance which as former NLGs we were willing to offer. We have provided over **1250 hrs of free support** in this academic year alone. We do not want the system to lose this support. Please take a moment to look at where we operate and the type of support we provide. Please get in touch.

Free and Truly Independent Governor Support

Please note: our free support and mentoring may lead on to paid work for our members e.g. ERGs or Governor Training

How and where do IGovS operate?

- IGovS are currently operating all over England as shown in this map;
- We can provide support or training remotely via emails, Zoom, Teams or phone calls.
- This can lead to face to face support or training if schools prefer.
- We add additional capacity to the system of support available through the new NLG system;
- We provide the support mentoring and coaching that is missing from the new NLG system;
- Our experience and knowledge has not been lost from Governance.

Support Provided 2022-2023 by month
